

Start hier met de installatie!

1

Ga naar de Google Playstore (Android) of AppStore (Apple) en installeer de Sensara app.

2

Open de app & klik rechtsonder op registreer (account).

3

Geef aan of u zelf de bewoner bent of dat u gemachtigd bent door de bewoner.

4

Vul nu uw email adres in, maak een wachtwoord aan, vul de naam van de bewoner in en kies de juiste tijdzone.

5

Geef aan of de woning een badkamer gecombineerd met een toilet heeft of een los toilet. Als u twee toiletten heeft met 1 gecombineerd toilet, kies dan gecombineerd.

6

Log nu nogmaals in. Scan vervolgens de QR code op de ontvanger en volg de instructies zoals aangegeven in de video.

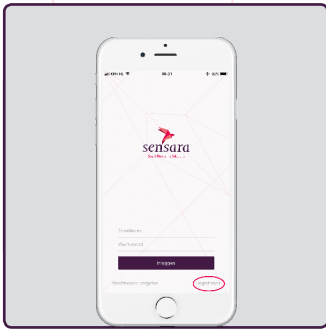

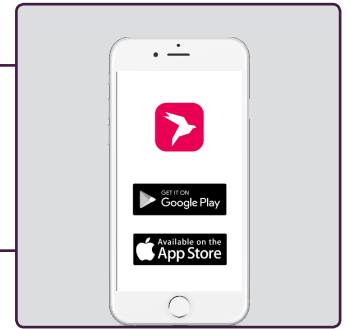

**Bent u er niet uitgekomen? Bel dan gerust onze helpdesk op 010-7640 803.

Start here with the installation!

1

Go to the Google Playstore (Android) or AppStore (Apple) and install the Sensara app.

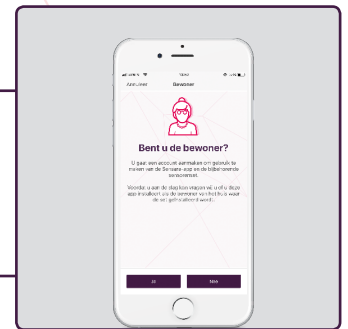

2

Open the app & click on "register" in the bottom right.

3

Are you the resident yourself or are you authorized by the resident?

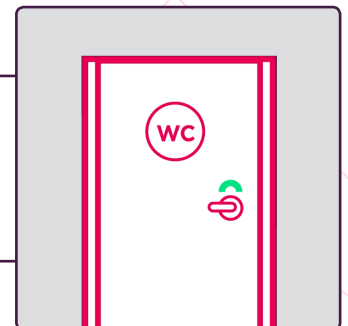

4

Fill in your e-mail address, create a password, fill in the resident's name and choose the right timezone.

5

Mention if the house has a bathroom combined with a toilet or a separate toilet. If you have two toilets with one of them combined with the bathroom, then choose combined as well.

6

Log in again. Now you need to scan the QR-code on the receiver and follow the instructions as mentioned in the video.
